PRINT 3D UI/UX ABOUT

BITE

BITE is a brand that draws out the expression of individuals who feel the need to break the mold but do not know how. BITE stands for quality, but also for affordability, remaining accessible for anyone who can find BITE as a creative outlet in expressing themselves. The desire to rise and take a bite out of those who stand over themselves. Those who believe that they are SUPREME. Or that we should OBEY. BITE wants to spear through those beliefs and create a path for those who want to find their place in the world. Anyone who can sink their fangs into something they want.

Even if we are sheep.
